FEDERAL GOVERNMENT EMPLOYMENT

January, 1958

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given in the report for April, 1957. Wherever possible the numbers of persons employed, as published in this report, are based on a count of the number on strength on the final day of the month. In some cases, however, departmental reports give a count of the number of persons paid during the final pay period or on strength on the final pay day in the month. Since the published figure in the report normally represents the number of staff on strength on the last day of the month, data shown will not agree in some cases with figures released by departments since the latter are usually based on a count of the number of persons paid during the final pay period in the month.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER QUASI-INDEPENDENT GOVERNMENT BODIES

Table 1 summarizes the record of employment of these organizations for the months shown. Canadian National Railways reported a reduction in staff for the fifth successive month. During the period the total staff of the railway was decreased by almost 20,000 employees.

<u>Table 1</u>	<u>Number</u>	<u>Earnings</u>
January, 1958	135,841	\$44,328,000
December, 1957	141,029	\$44,898,000
January, 1957	148,920	\$46,004,000

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

In Tables 2 to 6 inclusive employment data for the Department of Public Works was not available for certain services. These are:

Public Building Construction and Services - Toronto (Prevailing Rate)  
Harbours and Rivers Engineering Services - Toronto (Casuals)

A study of the most recent statistics available for these branches indicates that approximately 160 prevailing rate employees with \$25,000 earnings and an unknown amount of casual employment would be involved. Data on these Services will be included commencing with April, 1958.

# FEDERAL GOVERNMENT EMPLOYMENT

January, 1958

A number of departments recorded small increases in "casuals and others" employment. The National Parks branch of Northern Affairs and National Resources and the Canal Services branch of Transport carried on special work programs during the month. Earnings of Christmas helpers in the Post Office department are recorded as footnotes in this report. Casual employees of the Regional Offices of the Dominion Bureau of Statistics are included for the first time in this report. Also reported for the first time are staffs of the Royal Commission on Price Spreads in Food Products and the Royal Commission on Energy Policies which have been included in statistics for the Privy Council.

# FEDERAL GOVERNMENT EMPLOYMENT

February, 1958

## INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given in the report for April, 1957. Wherever possible the numbers of persons employed, as published in this report, are based on a count of the number on strength on the final day of the month. In some cases, however, departmental reports give a count of the number of persons paid during the final pay period or on strength on the final pay day in the month. Since the published figure in the report normally represents the number of staff on strength on the last day of the month, data shown will not agree in some cases with figures released by departments since the latter are usually based on a count of the number of persons paid during the final pay period in the month.

## PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER QUASI-INDEPENDENT GOVERNMENT BODIES

Table 1 summarizes the record of employment of these organizations for the months shown.

## PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

In Tables 2 to 6 inclusive employment data for the Department of Public Works was not available for certain services. These are:

Public Building Construction and Services - Toronto (Prevailing Rate)  
Harbours and Rivers Engineering Services - Toronto (Casuals)

Data on these Services will be included commencing with April, 1958.

# FEDERAL GOVERNMENT EMPLOYMENT

February, 1958

Small increases in salaried staff were reported by most departments but the House of Commons and the Senate had reduced staffs owing to the dissolution of the 23rd Parliament. The overtime reported in Table 7 for the Post Office includes overtime paid during the annual Christmas rush to regular employees of the department.

FEDERAL GOVERNMENT EMPLOYMENT

March, 1958

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given in the report for April, 1957. Wherever possible the numbers of persons employed, as published in this report, are based on a count of the number on strength on the final day of the month. In some cases, however, departmental reports give a count of the number of persons paid during the final pay period or on strength on the final pay day in the month. Since the published figure in the report normally represents the number of staff on strength on the last day of the month, data shown will not agree in some cases with figures released by departments since the latter are usually based on a count of the number of persons paid during the final pay period in the month.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER QUASI-INDEPENDENT  
GOVERNMENT BODIES

Table 1 summarizes the record of employment of these organizations for the months shown.

## FEDERAL GOVERNMENT EMPLOYMENT

APRIL, 1958

INTRODUCTION

An explanation of how the statistics for: (1) Agency and Proprietary Corporations and Other Quasi-Independent Government Bodies, and; (2) Departmental Branches, Services and Corporations are collected and maintained, is given, together with other background detail, in Part C - Explanatory Notes commencing on page 19. Data on Agency and Proprietary Corporations and Other Quasi-Independent Government Bodies is presented in Part A Table 1. That for Departmental Branches, Services and Corporations is summarized in Part B Table 2, presented on a functional classification basis in Tables 3 and 4; and on an administrative basis in Tables 5 and 6. Overtime payments are reported in Table 7 for staffs included in Part B. The classification by function is explained in detail on pages 22 to 25. The administrative classification is based upon the departmental establishment as presented in the official estimates of Canada, thus permitting the analyst to follow the growth and changes in employment of each department. This process, of course, must always take into consideration changes in departmental organization which occur from time to time.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER QUASI-INDEPENDENT GOVERNMENT BODIES

Table 1 summarizes the record of employment of these organizations for the months shown.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Salaried employees were fewer in number in National Defence (Army, Navy and Air) and in the Department of Transport. A seasonal increase of staff in the Experimental Farms Branch of Agriculture was the principal reason for the higher numbers of prevailing rate employees. Transport which had employed a number of casuals for brush clearing work in March released these in April thus occasioning the decline in casual staff.

Following is an outline of principal changes resulting from the Estimates for the fiscal year April 1, 1958 to March 31, 1959. Changes within a service (services as outlined for each department in Tables 5 and 6) are not detailed. The changes listed below do not represent the creation of new services.

- Supervision of Race Track Betting  
was under Administration Service, Agriculture  
is now under Production Service, Agriculture
- National Gallery of Canada  
was under Citizenship and Immigration  
is now listed separately from above Department
- Passport Office Administration  
was under External Affairs as a separate service  
is now combined with Departmental Administration, External Affairs
- War Museum  
was under National Defence  
is now combined with National Museum of Canada, Northern Affairs and National Resources.

The Estimates for the year 1958-59 record a new service entitled "Special" in the Privy Council. This service will include:

- 1) Royal Commission on Energy Policies
- 2) Royal Commission on Price Spreads in Food Products
- 3) Emergency Defence Measures

#### COMPARABILITY BETWEEN NUMBERS AND EARNINGS

The user of these statistics is advised to avoid making direct comparisons between the numbers of persons reported and the earnings reported, the reason for this being that numbers relate to the last day of the month wherever possible and otherwise to the final pay period of the month. Since in certain categories, especially casual employment, a very considerable fluctuation in numbers employed may occur during any month, it may be seen that a comparison between the earnings of all persons employed during the month and the numbers on strength at the end of the month would in many cases not be valid.

## FEDERAL GOVERNMENT EMPLOYMENT STATISTICS

PART C

## EXPLANATORY NOTES

The present statistics are the result of a monthly survey of Government of Canada employment published since April, 1952. During its period of publication this monthly report has had three different titles. In the period April, 1952 to August, 1953 it was known as "Government of Canada Employment and Payrolls". In the period September, 1953 to March, 1954 the report was known as "Federal Government Employment and Payrolls" and since April, 1954 the name of the publication has been "Federal Government Employment". The monthly statistical series replaces one formerly issued annually under several different titles the first of which was "Statistics of the Civil Service of Canada". This report was issued annually for the fiscal years ended March 31, 1925 to 1931. Combined reports with the above title were issued for the fiscal years ended 1932 to 1934; 1935 and 1936; and 1937 to 1939. The title of the report was changed to "Summary Statistics of the Civil Service of Canada". Reports under this title were issued in a combined form for the fiscal years ended 1940 to 1942 and for each of the fiscal years ended 1943 to 1948. The title was again changed to "Summary Statistics, Federal Civil Service Employment and Payrolls" for the year ended March 31, 1949. For the years ended March 31, 1950, 1951 and 1952 three reports were issued entitled "Federal Civil Service Employment and Payrolls".

These statistics are presented in a form which is intended to facilitate, among other uses, direct comparisons between (a) numbers employed as presented in this publication and (b) the number of positions established for each administrative branch of government.

The report is split into two main portions. Part A is composed of one table which presents the statistics of agency and proprietary corporations, and those of other quasi-independent government bodies. These bodies are listed in a later part of this text. Part B consists of tables 2 to 7 which present statistics relating to departmental branches, services and corporations as listed in Schedules A and B of the Financial Administration Act plus a few which are not listed therein. Data regarding departmental branches, services and corporations is summarized in table 2. Statistics regarding these bodies is presented on the basis of a classification by function in tables 3 and 4 and administratively in tables 5 and 6 while table 7 details overtime payments by department. In all the tables in Part B totals shown exclude "casuals and others" which are presented separately.

The statistics relate only to civilian employees and members of the Royal Canadian Mounted Police Force (which being a semi-military organization are not considered as being civilians). Members of the Armed Services are excluded. Deputy Ministers are included in the staffs of Departmental Services but Ministers of the Crown and the Solicitor-General are excluded. For Boards, Commissions and other Agencies those members or officers serving on a full-time basis, and whose salaries are fixed accordingly, are included, whereas directors or board members, who are paid on a per diem basis, or who receive a nominal honourarium for their services are excluded.

A description of the sources of data and the bases upon which the information is submitted and prepared for use in these statistics is contained in the following outline.

PART A

AGENCY AND PROPRIETARY CORPORATIONS AND  
OTHER QUASI-INDEPENDENT GOVERNMENT BODIES (TABLE I)

Statistics for this group are collected in two ways: (1) directly from the organizations; (2) through the Employment Section of the Dominion Bureau of Statistics. The statistics reported do not afford a presentation by class, i.e., salaried, casuals and others, etc., hence composite figures are published. In most cases, employees reported represent the staff strength during the final pay period of the month. Earnings reported include more than regular salaries and wages as some elements of overtime, bonus, etc., are present. Organizations included in Table 1 are listed by type as follows:

Agency Corporations

Atomic Energy of Canada Ltd.  
 Canadian Arsenals Ltd.  
 Canadian Commercial Corp.  
 Canadian Patents and Development Ltd.  
 Crown Assets Disposal Corp.

Defence Construction (1951) Ltd.  
 Federal District Commission  
 National Battlefields Commission  
 National Harbours Board  
 Northern Canada Power Commission

Proprietary Corporations

Canadian Broadcasting Corp.  
 Canadian Farm Loan Board  
 Canadian National Railways  
 Canadian National (West Indies)  
 Steamships Ltd.  
 Canadian Overseas Telecommunication Corp.  
 Central Mortgage and Housing Corp.

Eldorado Aviation Ltd.  
 Eldorado Mining and Refining Ltd.  
 Export Credits Insurance Corp.  
 Northern Transportation Company Ltd.  
 Polymer Corporation Ltd.  
 St. Lawrence Seaway Authority  
 Trans-Canada Air Lines

Other Quasi-Independent Government Bodies

Bank of Canada  
 Canadian Wheat Board  
 Hudson Bay Railway  
 Industrial Development Bank

Northern Ontario Pipe Line Crown Corp.  
 Office of the Custodian  
 Prince Edward Island Car Ferry  
 and Terminals

The above agency and Proprietary Corporations are listed in the Financial Administration Act under Schedules C and D respectively. See the Glossary on page 26 for the definition of these two types of corporations. The Quasi-Independent Government Bodies though not listed and defined in the Financial Administration Act are nevertheless organizations of the Crown.

PART B

DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS  
 (TABLES 2 TO 7 INCL.)

Salaried Employees (Formerly Entitled "Classified Employees")

The use of the term "salaried" in the present report is intended to end confusion which has resulted from the former use of the term "classified". "Classified" is understood by many persons using these statistics to relate only to employees who are certified under the Civil Service Act, whereas the coverage as presented in this report includes many salaried employees whose positions are exempt from the Civil Service Act. "Salaried" as used in this report means all persons paid on the basis of a stated annual salary rate, with the exception of the group of government employees which known as "ships' officers". The latter group are excluded because of their special treatment under Financial Administration Act. Statistics on "Salaried" employees are given in Tables 2 to 6. These persons are employed in departmental branches, services and corporations which are subject to the regulation of the Treasury Board. For a complete definition see the Glossary on page 26.

The basic data is recorded in two ways: (1) by employee; (2) by group of employees.

## (1) By employee:

Individual position records are maintained for the majority of salaried positions in the departmental branches, services and corporations of the Government of Canada (the remainder will be treated under "(2) by group of employees"). The position record cards contain data on the occupants of these positions. The records are amended monthly on the basis of documents received authorizing changes concerning positions and/or their occupants - thus affording a count of employees as at the last day of the month. Because of an unavoidable time lag in the routing of position and personnel changes through normal channels, it is not always possible to include all changes applicable to any month in statistics for that month. The count of employees for any given month, therefore, will not always represent the exact staff strength at the end of the month. Regular earnings being based on

annual salary rates will not necessarily equal the actual amounts paid in salaries for any given month. However, these factors are not considered to be of such significance as to seriously affect the usefulness of the statistics.

These individual records maintained for departmental branches, services and corporations include: (a) the regular governmental services and departments, and; (b) boards, commissions and agencies. The latter group covers the following:

Agricultural Prices Support Board	Income Tax Appeal Board
Air Transport Board	International Boundary Commission
Board of Grain Commissioners	International Joint Commission
Board of Transport Commissioners	National Gallery of Canada
Canadian Government Elevators	<del>Newfoundland Fish Board</del>
Canadian Maritime Commission	Office of the Commissioner of Penitentiaries
Canadian Pension Commission	Soldier Settlement and Veterans' Land Act
Civil Service Commission	Tariff Board
Dominion Coal Board	Unemployment Insurance Commission
Fisheries Prices Support Board	War Veterans' Allowance Board

(2) By group of employees:

Statistics pertaining to the remainder of salaried employees in departmental branches, services and corporations (for which no individual position records are maintained) are collected by means of forms or statements. The total staff strength at the end of the month is reported. Regular earnings (which excludes overtime, bonuses and other extra benefits) represents the total earned during each month by all persons employed in that month including those who are off-strength at the end of the month. The following are collected in this manner:

- Atomic Energy Control Board
- Defence Research Board
- Fisheries Research Board
- Citizenship and Immigration:
  - Indian Affairs Branch (Teachers only)
- Legislation:
  - The Senate
  - House of Commons
  - Library of Parliament
- National Film Board
- National Research Council
- Post Office:
  - employees paid from Postal Revenues
- Royal Canadian Mounted Police
- Royal Commission on Canada's Economic Prospects
- Royal Commission on Energy Policies
- Royal Commission on Newfoundland
- Royal Commission on Price Spreads in Food Products

All salaried "locally-engaged" employees in foreign countries are also reported on forms. See the Glossary on page 27 for definition.

Non-Salaried Employees (Prevailing Rates, Ships' Officers, Ships' Crews, Casuals and Others)

Individual position records, such as those maintained for the majority of "salaried" positions, are not kept for the non-salaried staff. The Dominion Bureau of Statistics obtains data on these employees by means of summary reports based on payroll and other records. Since these reports are prepared on the basis of pay period they represent the actual amounts paid out to employees during each month. The ships' officers are included in the group of non-salaried positions even though they are in fact salaried employees. This latter group has been recorded separately from the salaried employee group owing to their special treatment under the provisions of the Financial Administration Act.

### CLASSIFICATION BY FUNCTION

The statistics of departmental branches, services and corporations are classified in tables 3 and 4 by function. The purpose of providing a classification by function is to supply a means of studying the operations of governments without the complication which results from differences in administrative establishment which occur from time to time in each government and between governments. This analysis is useful in three ways. First it permits a detailed study of employment by the Government of Canada according to the main purposes or functions. Since these functions are not subject to periodic changes which alter the administrative structure of the government it is possible to develop a statistical series which, with minor exceptions, is consistent over an extended period of time. Second, since differences in administrative establishment are eliminated it is possible to make meaningful comparison between federal government expenditures on employment and similar expenditures by other levels of government. Third, an analysis of the relationship between expenditures on employment and total expenditures can be made with regard to each function. The use of percentages will facilitate comparisons especially between levels of government.

The classification by function reflects the purpose served by the expenditure, and employment statistics presented on this basis have been classified in accordance with concepts evolved by the Public Finance Section of the Dominion Bureau of Statistics for the presentation of financial statistics. The following listing shows how the administrative detail has been applied to the various functions and will serve to indicate clearly the meaning of each function.

- (2) Also applicable to function "Social Welfare".
- (3) Also applicable to function "Health".

COMPARABILITY WITH FORMER SURVEY

The statistical series produced on an annual basis for the years 1925 to 1952 was intended to include the number of permanent and temporary employees in the general administrative government services (this broadly speaking, included those coming under the Civil Service Act). In addition, the earnings of certain classes of employees referred to as "non-enumerated" classes were shown in the publication. The survey did not include a count of these "non-enumerated" classes. Since there was a distinct variation in the interpretation by departments of what constituted these groups there resulted differences between departments in the coverage of employees and earnings included in the annual series. The

monthly series which commenced in April, 1952 includes employees not formerly counted in the tabulations as well as a number of government services not previously included, and consequently the statistics should not be compared with the former annual series.

#### GLOSSARY OF PRINCIPAL TERMS USED

1. Department: Also known as departmental services, departments are the named divisions of the Government of Canada as defined in the Financial Administration Act.
2. Crown Corporations: A Crown Corporation is a corporation which is ultimately accountable, through a Minister, to Parliament for the conduct of its affairs, and includes the corporations named in the Financial Administration Act as departmental corporations, agency corporations and proprietary corporations.
3. Departmental Corporation: A Crown Corporation which is a servant or agent of Her Majesty in right of Canada and is responsible for administrative, supervisory, or regulatory services of a governmental nature.
4. Agency Corporation: A Crown Corporation which is an agent of Her Majesty in right of Canada and is responsible for the management of trading or service operations on a quasi-commercial basis, for the management of procurement, construction or disposal activities on behalf of Her Majesty in right of Canada.
5. Proprietary Corporation: A Crown Corporation which (1) is responsible for the management of lending or financial operations, or for the management of commercial and industrial operations involving the production of or dealing in goods and the supplying of services to the public, and (2) is ordinarily required to conduct its operations without appropriations from the Federal Treasury.
6. Salaried employee: An employee who is paid on the basis of an annual salary rate and occupies a salaried position authorized by the Treasury Board or the Privy Council. These employees and positions may be of a continuing, term, seasonal, sessional, or part time nature. The positions are specified together with appropriate funds, in the Estimates of Canada and supplementary authorizing documents.
7. Prevailing rate employee: An employee employed in the Public Service of Canada whose remuneration is based on the rate of pay prevailing in the area where he is employed for the class of work he does. His rate of pay may also be on rates prevailing in any area in Canada for work comparable to that which he does. The rates may be hourly, daily, weekly or monthly. These employees are governed by the Financial Administration Act - Prevailing Rate Employees General Regulations. They are occupants of positions authorized by the Treasury Board. The positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
8. Ships' officer: A person employed in the Public Service for duty on a ship that is the property of or chartered by or on behalf of Her Majesty as a master, mate or marine engineer who is duly certified under the Canadian Shipping Act or in a position designated by the Treasury Board as that of a ship's officer. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. An annual rate of pay is determined by the Treasury Board after consultation with the Department of Labour. These employees are governed by the Financial Administration Act - Ships' Officer's Regulations. They are occupants of positions established by the Treasury Board and these positions, together with appropriate funds, are listed in the Estimates of Canada.
9. Ships' crew employee: A person employed in the Public Service for duty on a ship that is the property of or chartered by or on behalf of Her Majesty as an unlicensed crew member. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. A monthly rate of pay is determined by the Treasury Board after consultation with the Department of Labour. These employees are governed by the Financial Administration Act - Ships' Crews Regulations. They are occupants of positions established by the Treasury Board and these positions, together with appropriate funds, are listed in the Estimates of Canada.

10. Casual and other employee: All employees in Departments and Departmental corporations of the Government of Canada who are not defined as Salaried, Prevailing Rate, Ships' Officers or Ships' Crews employees.
11. Locally-Engaged employees: These are persons, usually citizens of foreign countries, employed by the Government of Canada to perform duties in their country. Their salary is stated in the currency of the country where they are employed. Salaried locally-engaged employees are those persons occupying positions: (1) in classes having the suffix U.K. i.e., Clerk 2(UK), Stenographer 1(UK), etc.; (2) as Assistants. Some locally-engaged employees are employed on a casual basis and are paid from the vote "Casuals and Others". The term "locally-engaged" excludes Canadian employees posted abroad.

## FEDERAL GOVERNMENT EMPLOYMENT

May, 1958

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given in the report for April, 1958. Wherever possible the numbers of persons employed, as published in this report, are based on a count of the number on strength on the final day of the month. In some cases published reports of departments and corporations give a count of the number of persons paid during the final pay period or on strength on the final pay day in the month and hence they may not agree with data shown in this publication.

## FEDERAL GOVERNMENT EMPLOYMENT

May, 1958

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Salaried employment increased seasonally in several departments as did prevailing rate and casual employment. Agriculture, Fisheries, Mines and Technical Surveys, National Defence and Public Works all reported such changes. The Senate and House of Commons staffs were increased sharply due to the opening of the 24th Parliament which commenced sessions during the month. Northern Affairs and National Resources had seasonal increases in salaried employment but declines in prevailing rate and casual staff owing to the completion of the departments' special winter program designed to alleviate unemployment. Transport also indicated a gain in salaried and a drop in casual employment.

## FEDERAL GOVERNMENT EMPLOYMENT

June, 1958

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given in the report for April, 1958. Wherever possible the numbers of persons employed, as published in this report, are based on a count of the number on strength on the final day of the month. In some cases published reports of departments and corporations give a count of the number of persons paid during the final pay period or on strength on the final pay day in the month and hence they may not agree with data shown in this publication.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER QUASI-INDEPENDENT GOVERNMENT BODIES

Table 1 summarizes the record of employment of these organizations for the months shown. Numbers employed, while continuing to rise, were still well below June 1957 figures due mainly to reduced rail activity by the Canadian National Railways.

<u>Table 1</u>	<u>Number</u>	<u>Earnings</u>
June, 1958	143,639	\$47,486,000
May, 1958	140,477	\$47,208,000
June, 1957	153,519	\$45,665,000

## FEDERAL GOVERNMENT EMPLOYMENT

June, 1958

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Completions of annual income tax returns led to a large decrease in the salaried staff of the Taxation Division of National Revenue. This was offset by seasonal increases reported by several departments. Prevailing rate employment was seasonally higher in the departments of Agriculture, Fisheries, National Defence and Northern Affairs and National Resources. Casual employment was reduced in the Unemployment Insurance Commission and the department of Finance while increases were recorded by Citizenship and Immigration, National Defence, Northern Affairs and National Resources, Public Works and Transport.

## FEDERAL GOVERNMENT EMPLOYMENT

July, 1958

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given in the report for April, 1958. Wherever possible the numbers of persons employed, as published in this report, are based on a count of the number on strength on the final day of the month. In some cases published reports of departments and corporations give a count of the number of persons paid during the final pay period or on strength on the final pay day in the month and hence they may not agree with data shown in this publication.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER QUASI-INDEPENDENT  
GOVERNMENT BODIES

Table 1 summarizes the record of employment of these organizations for the months shown.

<u>Table 1</u>	<u>Number</u>	<u>Earnings</u>

FEDERAL GOVERNMENT EMPLOYMENT

July, 1958

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

A comparison of July, 1958 data with those for June shows that Salaried employees were down by 412 in the Executive and Administrative services of the General Government function and by 1,066 in Indian and Eskimo schools under the function Education. An increase of 204 was recorded in Natural Resources and Primary Industries. Prevailing Rate staffs increased seasonally in Defence Services and in Natural Resources and Primary Industries. Substantial increases in Casual staff occurred in: Defence Services; Transportation and Communications - Airways and Waterways; National Resources and Primary Industries - Lands: Settlement and Agriculture. Casual employment was lower in: Social Welfare - National Employment Services; Education - Indian and Eskimo Schools.

The large reductions in staff of the Department of Citizenship and Immigration resulted from the annual summer layoff of teaching and maintenance staffs of the Indian and Eskimo schools. The Taxation Branch of National Revenue had a further seasonal decrease in staff following the completion of the annual collection of income tax returns.

## FEDERAL GOVERNMENT EMPLOYMENT

August, 1958

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given in the report for April, 1958. Wherever possible the numbers of persons employed, as published in this report, are based on a count of the number on strength on the final day of the month. In some cases published reports of departments and corporations give a count of the number of persons paid during the final pay period or on strength on the final pay day in the month and hence they may not agree with data shown in this publication.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER QUASI-INDEPENDENT  
GOVERNMENT BODIES

Table 1 summarizes the record of employment of these organizations for the months shown.

<u>Table 1</u>	<u>Number</u>	<u>Earnings</u>
August, 1958	145,939	\$ 49,690,000

August, 1957	156,941	\$ 50,360,000

FEDERAL GOVERNMENT EMPLOYMENT

August, 1958

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Changes in employment during August were relatively few in number. Salaried employment was up 342 with the largest increase, 151, in the sub-function "Post Office". Prevailing Rate employees were reduced by 98 mainly in "Recreational and Cultural Services - Parks, Beaches and Other Recreational Areas". Employment of Casual staff was down 212 with decreases in "Social Welfare" and "Natural Resources and Primary Industries" only partly offset by a gain in "Transportation and Communications".

The August statistics for Prevailing Rate, Ships' Officers and Crews and Casual employees and their earnings were not available from the Department of National Defense in time for inclusion in this report. In order to give a relatively complete picture July data have been included for the above and for a few other outstanding reports. Overtime data shown in this report for all staff of National Defense represents July data.

## FEDERAL GOVERNMENT EMPLOYMENT

September, 1958

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given in the report for April, 1958. Wherever possible the numbers of persons employed, as published in this report, are based on a count of the number on strength on the final day of the month. In some cases published reports of departments and corporations give a count of the number of persons paid during the final pay period or on strength on the final pay day in the month and hence they may not agree with data shown in this publication.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER QUASI-INDEPENDENT  
GOVERNMENT BODIES

Table 1 summarizes the record of employment of these organizations for the months shown.

<u>Table 1</u>	<u>Number</u>	<u>Earnings</u>
September, 1958	143,385	\$ 48,814,000
August, 1958	145,939	\$ 49,690,000
September, 1957	154,622	\$ 48,919,000

# FEDERAL GOVERNMENT EMPLOYMENT

September, 1958

## PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

September detail pertaining to Prevailing Rate, Ships' officers and Crews and Casual employees and earnings of National Defence were not available and it was necessary to use July data to present a fairly complete picture of total employment. It should be noted, however, that the use of July data for this large department tends to distort the pattern of seasonal reductions, especially in Prevailing Rate and Casual staffs. Comparison of figures for the function "Defence Services" for July and September 1957 will indicate the nature of this distortion.

		Prevailing Rate	Numbers		Prevailing Rate	Earnings	
			Ships' Officers and Crews	Casuals		Ships' Officers and Crews	Casuals
July, 1957	17,801	560	6,180	\$4,420,597	\$148,787	\$1,646,714	
September, 1957	15,217	547	5,824	\$3,746,908	\$144,157	\$1,489,545	

The reduction in Salaried staff recorded in this report is mainly due to the layoff of sessional staff following the prorogation of the 1st Session of the 24th Parliament on September 6th. During the month numerous Student Assistants completed their summer assignments and returned to school. The function "Education" showed 1,115 more employees due to the return of teachers for the fall term in Indian and Eskimo Schools. Overtime data for July was used in this report to cover the Department of National Defence.

## FEDERAL GOVERNMENT EMPLOYMENT

October, 1958

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given in the report for April, 1958. Wherever possible the numbers of persons employed, as published in this report, are based on a count of the number on strength on the final day of the month. In some cases published reports of departments and corporations give a count of the number of persons paid during the final pay period or on strength on the final pay day in the month and hence they may not agree with data shown in this publication.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER QUASI-INDEPENDENT  
GOVERNMENT BODIES

Table 1 summarizes the record of employment of these organizations for the months shown. The decrease of 4,100 employees between September and October is accounted for by Canadian National Railways and the Northern Transportation Company

<u>Table 1</u>	<u>Number</u>	<u>Earnings</u>
October, 1958	139,285	\$ 47,657,000
September, 1958	143,385	\$ 48,814,000
October, 1957	150,921	\$ 49,001,000

FEDERAL GOVERNMENT EMPLOYMENT

October, 1958

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Table 2 shows revised data for August and September in order that the result of including National Defence department data for those months might be recorded. Between July and October the Army recorded a drop of over 2,000 prevailing rate employees mainly in August and September. Army also showed a decline of almost 1,100 casuals in the same period while Air services recorded over 500 fewer casuals in October compared with July. These changes all affect the function - Defence Services.

Comparison of revised September statistics with those for October shows a small decline in Salaried employment due mainly to the return of Student Assistants to school. The drop in prevailing rates staff occurred mainly in the Defence Services, Recreational and Cultural Services and National Resources and Primary Industries functions and reflected seasonal layoffs. Increases in casual employment occurred in several functions, the largest gains being in Transportation and Communications - Waterways and Natural Resources and Primary Industries - Lands.

## FEDERAL GOVERNMENT EMPLOYMENT

November, 1958

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given in the report for April, 1958. Wherever possible the numbers of persons employed, as published in this report, are based on a count of the number of strength on the final day of the month. In some cases published reports of departments and corporations give a count of the number of persons paid during the final pay period or on strength on the final pay day in the month and hence they may not agree with data shown in this publication.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER QUASI-INDEPENDENT  
GOVERNMENT BODIES

Table 1 summarizes the record of employment of these organizations for the months shown. The decline in staff was due to seasonal layoffs.

<u>Table 1</u>	<u>Number</u>	<u>Earnings</u>

FEDERAL GOVERNMENT EMPLOYMENT

November, 1958

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Changes in employment during November were few with Salaried employment virtually unchanged. A rise in Prevailing Rate employment which occurred in the function "Recreational and Cultural Services - Parks, etc.", was offset by a seasonal decline in "Natural Resources and Primary Industries, Fish and Game, and Forests". Seasonal decreases in Casual employment occurred in "Defence Services", "Transportation and Communications - Waterways", and "Natural Resources and Primary Industries - Lands" as well as in a number of other functions. Coincident with the annual seasonal decline in employment in many industries the function "Social Welfare - National Employment Service" had a substantial increase in Casual employment. This results from hirings of staff by the Unemployment Insurance Commission to help process the greatly increased number of applications for unemployment insurance benefits and for employment which occurs in the fall of each year.

## FEDERAL GOVERNMENT EMPLOYMENT

December, 1958

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given in the report for April, 1958. Wherever possible the numbers of persons employed, as published in this report, are based on a count of the number on strength on the final day of the month. In some cases published reports of departments and corporations give a count of the number of persons paid during the final pay period or on strength on the final pay day in the month and hence they may not agree with data shown in this publication.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER GOVERNMENT BODIES

Earnings were higher despite a decline in numbers employed. This result from a retroactive pay increase paid in December to non-operating employees of the Canadian National Railways.

FEDERAL GOVERNMENT EMPLOYMENT

December, 1958

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Employment of salaried, prevailing rate and ships' staffs changed only slightly in December as compared with November. Casual staff in "Social Welfare - National Employment Service" was up 1,236 or 51 p.c. due to seasonal demands on the Unemployment Insurance Commission.

## FEDERAL GOVERNMENT EMPLOYMENT

January, 1959

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given in the report for April, 1958. Wherever possible the numbers of persons employed, as published in this report, are based on a count of the number on strength on the final day of the month. In some cases published reports of departments and corporations give a count of the number of persons paid during the final pay period or on strength on the final pay day in the month and hence they may not agree with data shown in this publication.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER GOVERNMENT BODIES

Employees of the Cornwall International Bridge Company Limited and their earnings are reported for the first time this month. This firm has been designated as a Proprietary Crown Corporation under the Financial Administration Act.

## FEDERAL GOVERNMENT EMPLOYMENT

January, 1959

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

The Second Session of the 24th Parliament of Canada commenced on January 15th with a resultant increase of almost 300 Salaried Employees in the function General Government - Legislative. The winter works program in national parks brought an increase of over 550 Prevailing Rate and 180 Casual employees in Recreational and Cultural Services - Parks etc. The Defense Services function showed an increase of almost 530 Casuals due mainly to higher employment by the Air Services Branch of National Defense. Casual employment declined 200 in National Employment Services but this was offset by a rise of 215 in Post Office.

December was the last month in which staff was reported by the Royal Commission on Canada's Economic Prospects. This employment had been reported departmentally under Finance - Special which shows a "nil" report for January (page 10).

## FEDERAL GOVERNMENT EMPLOYMENT

February, 1959

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given in the report for April, 1958. Wherever possible the numbers of persons employed, as published in this report, are based on a count of the number on strength on the final day of the month. In some cases published reports of departments and corporations give a count of the number of persons paid during the final pay period or on strength on the final pay day in the month and hence they may not agree with data shown in this publication.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER QUASI-INDEPENDENT  
GOVERNMENT BODIES

The strike of some 1,150 Canadian Broadcasting Corporation employees which commenced on December 29th continued throughout February with a resultant loss of between \$350,000 and \$400,000 earnings for the month.

## FEDERAL GOVERNMENT EMPLOYMENT

February, 1959

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Staff of the Board of Broadcast Governors is reported for the first time. The Board was established under authority of an Order-In-Council dated January 21, 1959. Salaried employment showed a seasonal increase of 464 in the function General Government - Executive and administrative. Prevailing Rate employees were reduced 196 in number in the function Recreational and Cultural Services - Parks etc. Casual employment showed considerable fluctuation with increases mainly in Defence Services (+ 139) and Natural Resources - Fish and Game (+ 60) and Lands, Settlement and Agriculture (+ 136). These increases were more than offset by major declines in Transportation and Communications - Waterways (- 458) and Airways (- 71); Social Welfare - National Employment Service (- 478) and Natural Resources and Primary Industries - Other (- 88).

Total regular employment (182,205) was 1.4 p.c. higher than in February, 1958 and 5.5 p.c. above February, 1957 (172,708).

## FEDERAL GOVERNMENT EMPLOYMENT

March, 1959

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given in the report for April, 1958. Wherever possible the numbers of persons employed, as published in this report, are based on a count of the number on strength on the final day of the month. In some cases published reports of departments and corporations give a count of the number of persons paid during the final pay period or on strength on the final pay day in the month and hence they may not agree with data shown in this publication.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND  
OTHER QUASI-INDEPENDENT GOVERNMENT BODIES

The strike of 1,150 employees of the Canadian Broadcasting Corporation ended on March 9th. On March 19th 1,860 workers of the Polymer Corporation struck over wages and working conditions. The loss of earnings of these employees was between \$300,000 and \$350,000 during March. The strike continued during April. Transportation employees of the Canadian National Railways received almost \$900,000 back pay during March 1959. This amount has been included below.

Table 1

	<u>Number</u>	<u>Earnings</u>
March, 1959	131,973	\$47,882,000
February, 1959	131,452	\$45,380,000
March, 1958	136,146	\$43,967,000

## FEDERAL GOVERNMENT EMPLOYMENT

March, 1959

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Due to the seasonal increase of staff in the Taxation Branch of National Revenue the function General Government - Executive and Administrative showed a rise of 741 salaried employees. Prevailing Rate and Ships employees recorded virtually no change. Casuals were 470 lower in Transportation and Communications - Waterways and 343 lower in Social Welfare - National Employment Services. Both reductions were largely seasonal in nature.

Regular employment at 182,944 was 1.3 p.c. above that for March, 1958 and 14.1 p.c. higher than in March, 1954. Regular earnings of \$55,665,712 were 4.3 p.c. above those for March 1958 and 39.8 p.c. over March five years previously. In the five year period salaried employment rose 14.0 p.c. and the regular earnings of salaried employees by 39.7 p.c.

INTRODUCTION

An explanation of how the statistics for: 1) Agency and Proprietary Corporations and Other Agencies, and; 2) Departmental Branches, Services and Corporations are collected and maintained is given, together with other background detail, in Part C - "Explanatory Notes" commencing on page 21.

Table 1 is a new table, presented this month for the first time, which combines all employees reported in Parts A and B. Data on Agency and Proprietary Corporations and Other Agencies is presented by province in Part A, Table 2. That for Departmental Branches, Services and Corporations is summarized in Part B, Table 3, presented by province in Tables 4a and 4b, on the basis of a classification by function in Tables 5 and 6, on an administrative basis in Tables 7 and 8 and finally overtime payments are reported in Table 9. The classification by function is explained in detail on pages 23 to 27. The administrative classification is based upon the departmental establishment as presented in the official Estimates of Canada, thus permitting the analyst to follow the growth and changes in employment of each department. This process, of course, must always take into consideration changes in departmental organization which occur from time to time.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The strike of Polymer Corporation employees continued during the month with some 1,800, affected and a resultant loss of earnings in excess of \$680,000. The number of employees in the government organizations included in this table rose by approximately 1,600 over March due mainly to seasonal increases by the National Harbours Board and the Northern Transportation Company and to the transfer of more than 900 employees from the Department of Transport to the St. Lawrence Seaway Authority.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

With the opening of the 1959 season of navigation the St. Lawrence Seaway Authority replaced the Department of Transport as the government body responsible for operation of canals on the Seaway system. As a result most of the former employees of the Sault Ste. Marie, Welland and St. Lawrence river canals became employees of the Authority. This change resulted in a drop in the function "Transportation and Communication - Waterways" of 711 Salaried, 266 Prevailing Rate and 458 Casual employees. The function "Defence Services" recorded a decline of 300 and "Social Welfare - National Employment Services" of 290 Casual employees.

STRUCTURAL CHANGES FROM PREVIOUS REPORTS

Following is an outline of principal changes resulting from the Estimates for the fiscal year April, 1959 to March 31, 1960. Changes within a service (services as outlined for each department in Tables 7 and 8) are not detailed.

1. Agriculture

A complete departmental reorganization has been implemented.

2. National Health and Welfare

Part of National Health Branch - Administration, and part of Welfare Branch - Administration are now included under Departmental Administration.

3. Trade and Commerce

Departmental Administration (including Standards Branch), Trade Commissioner Service, Exhibitions Branch and Dominion Bureau of Statistics which are included under "General Administration" in the Estimates for 1959/60 have been listed separately for the purpose of this report.

4. Transport

Northwest Territories and Yukon Radio System formerly under National Defence - Army now under Transport-Air Services.

5. Veterans Affairs

Veterans' Insurance, previously a separate Branch, is now included with Veterans' Welfare Services.

## FEDERAL GOVERNMENT EMPLOYMENT

PART C

## EXPLANATORY NOTES

The present statistics are the result of a monthly survey of Government of Canada employment published since April, 1952. This monthly report has had three different titles. In the period April, 1952 to August, 1953 it was known as "Government of Canada Employment and Payrolls". In the period September, 1953 to March, 1954 the report was known as "Federal Government Employment and Payrolls" and since April, 1954 the name of the publication has been "Federal Government Employment". The monthly statistical series replaces one formerly issued annually under several different titles the first of which was "Statistics of the Civil Service of Canada". This report was issued annually for the fiscal years ended March 31, 1925 to 1931. Combined reports with the above title were issued for the fiscal years ended 1932 to 1934; 1935 and 1936; and 1937 to 1939. The title of the report was changed to "Summary Statistics of the Civil Service of Canada". Reports under this title were issued in a combined form for the fiscal years ended 1940 to 1942 and for each of the fiscal years ended 1943 to 1948. The title was again changed to "Summary Statistics, Federal Civil Service Employment and Payrolls" for the year ended March 31, 1949. For the years ended March 31, 1950, 1951 and 1952 three reports were issued entitled "Federal Civil Service Employment and Payrolls".

The present monthly report is composed of three parts. Introduction summarizes, in Table 1, data on all persons employed by the Federal Government and its agencies. Part A presents, in Table 2, employment data of agency and proprietary corporations and other agencies by province. A list of these bodies appears on page 22 of this section. Part B consists of Tables 3 to 9 which present statistics relating to the departmental branches, services and corporations listed in the Financial Administration Act plus a few which are not listed therein. Data on these is summarized in Table 3, presented by province in Tables 4A and 4B, classified by function in Tables 5 and 6, and on an administrative basis in Tables 7 and 8 while Table 9 details overtime payments by departments.

Statistics in the current report are presented in a form which is intended to facilitate, among other uses, direct comparisons between 1) numbers employed (reported in this publication), and 2) the number of positions established for each administrative branch of government (published in the Estimates of Canada).

The statistics relate only to civilian employees and to members of the Royal Canadian Mounted Police Force (which being a semi-military organization are not considered as being civilian). Members of the Armed Services are excluded. Deputy Ministers are included in the staffs of Departmental Services but Ministers of the Crown and the Solicitor-General are excluded. For Boards, Commissions and other bodies those members or officers serving on a full-time basis, and whose salaries are fixed accordingly, are included, whereas directors or board members, who are paid on a per diem basis or who receive a nominal honourarium for their services are excluded.

A description of the sources of data and the bases upon which the information is submitted and prepared for use is contained in the following outline.

INTRODUCTIONTOTAL FEDERAL GOVERNMENT EMPLOYMENT AND PAYROLLS (TABLE 1)

Table 1 groups employees of: 1) departmental branches, services and corporations, and 2) agency and proprietary corporations and other agencies. Each of these two categories are broken down into its component parts resulting in five main groups.

PART AAGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES (TABLE 2)

Statistics for these organizations are collected in two ways: 1) directly from the corporation or agency; 2) through the Employment Section of the Dominion Bureau of Statistics. The statistics reported do not permit a presentation by class, i.e. salaried, casuals and others, etc., hence composite figures are published. In most cases, employees reported represent the staff strength during the final

pay period of the month. Gross earnings are reported and they accordingly include overtime and other types of special payments in addition to regular salaries and wages. Organizations included in Table 2 are listed by group as follows:

#### Agency Corporations

Atomic Energy of Canada Ltd.  
Canadian Arsenals Ltd.  
Canadian Commercial Corp.  
Canadian Patents and Development Ltd.  
Crown Assets Disposal Corp.

Defence Construction (1951) Ltd.  
National Battlefields Commission  
National Capital Commission  
National Harbours Board  
Northern Canada Power Commission

#### Proprietary Corporations

Canadian Broadcasting Corp.  
Canadian Farm Loan Board  
Canadian National Railways  
Canadian Overseas Telecommunication Corp.  
Central Mortgage and Housing Corp.  
Cornwall International Bridge Company Ltd.  
Eldorado Aviation Ltd.

Eldorado Mining and Refining Ltd.  
Export Credits Insurance Corp.  
Northern Transportation Company Ltd.  
Polymer Corporation Ltd.  
St. Lawrence Seaway Authority  
Trans-Canada Air Lines

#### Other Agencies

Bank of Canada  
Canadian Wheat Board  
Industrial Development Bank

Northern Ontario Pipe Line Crown Corp.  
Office of the Custodian

The Canadian National (West Indies) Steamships Ltd., Hudson Bay Railway, and, Prince Edward Island Car Ferry and Terminals have been deleted from the above list as the former is no longer in business and the latter two were integrated into the Canadian National Railways System.

The Agency and Proprietary Corporations are listed in the Financial Administration Act under Schedules C and D respectively. The Glossary on page 28 of this report contains definitions of these two types of corporations. The "Other Agencies" though not listed and defined in the Financial Administration Act are nevertheless organizations of the Crown.

### PART B

#### DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS (TABLES 3 TO 9)

##### Salaried employees

Salaried employees as used in this report means all persons paid on the basis of a stated annual salary rate, with the exception of the group known as "ships' officers". The latter group are excluded because of their special treatment under the Financial Administration Act. For a more complete definition of "salaried employees" see the Glossary on page 28.

The basic data is recorded in two ways: 1) by employee; 2) by group of employees.

##### 1) By employee:

Individual position records are maintained for the majority of salaried positions in the departmental branches, services and corporations of the Government of Canada (the remainder will be treated under "2) by group of employees"). The position record cards contain data on the occupants of these positions. The records are amended monthly on the basis of documents received authorizing changes concerning positions and/or their occupants - thus affording a count of persons employed on the last day of the month. Because of an unavoidable time lag in the routing of position and personnel changes through normal channels, it is not always possible to include all changes applicable to any month in statistics for that month. The count of employees for a given month, therefore, will not always represent the exact staff strength at the end of that month. Regular earnings, being based on annual salary rates, will not necessarily equal the actual amounts paid in salaries for any given month. These factors are not, however, significant enough to seriously affect the usefulness of the statistics.

## 2) By group of employees:

Statistics pertaining to the remainder of salaried employees in departmental branches, services and corporations (for which no individual position records are maintained) are collected by means of forms or statements. The staff strength at the end of the month is reported. Regular earnings (which excludes overtime, bonuses and other extra benefits) represents the total earned during each month by all persons employed in that month including those who are off-strength at the end of the month. The following are collected in this manner:

- Atomic Energy Control Board
- Defence Research Board
- Fisheries Research Board
- Legislation:
  - The Senate
  - House of Commons
  - Library of Parliament
- National Film Board
- National Research Council
- Post Office:
  - employees paid from Postal Revenues
- Royal Canadian Mounted Police
- Royal Commission on Energy Policies
- Royal Commission on Price Spreads of Food Products

All salaried "locally-engaged" employees in foreign countries are also reported on forms. See the Glossary for definition.

### Non-Salaried Employees (Prevailing Rate, Ships' Officers and Crews, Casuals and Others)

Individual position records, such as those maintained for the majority of "salaried" positions, are not kept for the non-salaried staff. The Dominion Bureau of Statistics obtains data on these employees by means of summary reports based on payroll and other records. Since these reports are prepared on the basis of pay period they represent the actual amounts paid out to employees during each month. The ships' officers are included in the non-salaried group (though they are in fact salaried employees), owing to their special treatment under the Financial Administration Act.

### Departmental Corporations

In order to distinguish them from departmental branches and services, the following are departmental corporations included in this report and listed in Schedule B of the Financial Administration Act. A definition appears in the Glossary:

- Agricultural Prices Support Board
- Atomic Energy Control Board
- Canadian Maritime Commission
- Director of Soldier Settlement
- The Director, The Veterans' Land Act
- Dominion Coal Board
- Fisheries Prices Support Board
- National Gallery of Canada
- National Research Council
- Unemployment Insurance Commission

### CLASSIFICATION BY FUNCTION

The statistics of departmental branches, services and corporations are classified in tables 5 and 6 by function. The purpose of providing a classification by function is to supply a means of studying the operations of governments without the complications resulting from differences in administrative establishment which occur from time to time in each government and between governments. This analysis is useful in three ways. First it permits a detailed study of employment by the Government of Canada according to the main purposes or functions. Since these functions are not subject to the periodic changes which alter the administrative structure of the government it is possible to develop a statistical series which, with minor exceptions, is consistent over an extend period of time. Second,

since differences in administrative establishments are eliminated it is possible to make meaningful comparisons between federal government expenditures on employment and similar expenditures by other levels of government. Third, an analysis of the relationship between expenditures on employment and total expenditures can be made with regard to each function. The use of percentages will facilitate comparisons especially between levels of government.

The classification by function reflects the purpose served by the expenditure, and employment statistics presented on this basis have been classified in accordance with concepts evolved by the Public Finance Section of the Dominion Bureau of Statistics for the presentation of financial statistics. The following listing shows how the administrative detail has been applied to the various functions and will serve to indicate clearly the meaning of each function. Since "other" is actually a group of functions the component parts have been listed separately so that each may be self-evident.

#### COMPARABILITY BETWEEN NUMBERS AND EARNINGS

The user of these statistics is advised to avoid making direct comparisons between the numbers of persons reported and the earnings reported, the reason for this being that numbers relate to the last day of the month wherever possible and otherwise to the final pay period of the month. Since in certain categories, especially casual employment, a very considerable fluctuation in numbers employed may occur during any month, it may be seen that a comparison between the earnings of all persons employed during the month and the numbers on strength at the end of the month would, in many cases, not be valid.

#### COMPARABILITY WITH FORMER SURVEY

The statistical series produced on an annual basis for the years 1925 to 1952 was intended to include the number of permanent and temporary employees in the general administrative government services (this broadly speaking, included those coming under the Civil Service Act). In addition, the earnings of certain classes of employees referred to as "non-enumerated" classes were shown in the publication. The survey did not include a count of these "non-enumerated" classes. Since there was a distinct variation in the interpretation by departments of what constituted these groups there resulted differences between departments in the coverage of employees and earnings included in the annual series. The monthly series which commenced in April, 1952 includes employees not formerly counted in the tabulations as well as a number of government services not previously included, and consequently the statistics should not be compared with the former annual series.

GLOSSARY OF PRINCIPAL TERMS USED

1. **Department:** Also known as departmental services, departments are the named divisions of the Government of Canada as defined in the Financial Administration Act.
2. **Crown Corporations:** A Crown Corporation is a corporation which is ultimately accountable, through a Minister, to Parliament for the conduct of its affairs, and includes the corporations named in the Financial Administration Act as departmental corporations, agency corporations and proprietary corporations.
3. **Departmental Corporation:** A Crown Corporation which is a servant or agent of Her Majesty in right of Canada and is responsible for administrative, supervisory, or regulatory services of a governmental nature.
4. **Agency Corporation:** A Crown Corporation which is an agent of Her Majesty in right of Canada and is responsible for the management of trading or service operations on a quasi-commercial basis, or for the management of procurement, construction or disposal activities on behalf of Her Majesty in right of Canada.
5. **Proprietary Corporation:** A Crown Corporation which (1) is responsible for the management of lending or financial operations, or for the management of commercial and industrial operations involving the production of or dealing in goods and the supplying of services to the public, and (2) is ordinarily required to conduct its operations without appropriations from the Federal Treasury.
6. **Salaried employee:** An employee who is paid on the basis of an annual salary rate and occupies a salaried position authorized by the Treasury Board or the Privy Council. These employees and positions may be of a continuing, term, seasonal, sessional, or part time nature. The positions are specified together with appropriate funds, in the Estimates of Canada and supplementary authorizing documents and are located in departmental branches, services and corporations subject to the regulation of the Treasury Board.
7. **Prevailing rate employee:** An employee employed in the Public Service of Canada whose remuneration is based on the rate of pay prevailing in the area where he is employed for the class of work he does. His rate of pay may also be on rates prevailing in any area in Canada for work comparable to that which he does. The rates may be hourly, daily, weekly or monthly. These employees are governed by the Financial Administration Act - Prevailing Rate Employees General Regulations. They are occupants of positions authorized by the Treasury Board. The positions, together with appropriate funds, are listed in the Estimates of Canada and supplementary authorizing documents.
8. **Ships' officer:** A person employed in the Public Service for duty on a ship that is the property of or chartered by or on behalf of Her Majesty as a master, mate or marine engineer who is duly certified under the Canadian Shipping Act or in a position designated by the Treasury Board as that of ship's officer. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. An annual rate of pay is determined by the Treasury Board after consultation with the Department of Labour. These employees are governed by the Financial Administration Act - Ships' Officer's Regulations. They are occupants of positions established by the Treasury Board and these positions, together with appropriate funds, are listed in the Estimates of Canada.
9. **Ships' crew employee:** A person employed in the Public Service for duty on a ship that is the property of or chartered by or on behalf of Her Majesty as an unlicensed crew member. Excluded are members of the Armed Forces and the Royal Canadian Mounted Police. A monthly rate of pay is determined by the Treasury Board after consultation with the Department of Labour. These employees are governed by the Financial Administration Act - Ships' Crews Regulations. They are occupants of positions established by the Treasury Board and these positions, together with appropriate funds, are listed in the Estimates of Canada.
10. **Casual and other employee:** All employees in Departments and Departmental corporations of the Government of Canada who are not defined as Salaried, Prevailing Rate, Ships' Officer or Ships' Crew employees.
11. **Locally-Engaged employees:** These are persons, usually citizens of foreign countries, employed by the Government of Canada to perform duties in their country. Their salary or wage is stated in the currency of the country where they are employed. Salaried locally-engaged employees are those persons occupying positions: (1) in classes having the suffix U.K. i.e., Clerk 2(UK), Stenographer 1(UK), etc.; (2) as Assistants. While most are engaged as Salaried or prevailing rate staff some locally-engaged employees are employed on a casual basis and are paid from the vote "Casuals and Others". The term "locally-engaged" excludes Canadian employees posted abroad.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

Increased employment by the Canadian National Railways, Atomic Energy Limited, the Canadian Broadcasting Corporation, National Harbours Board and Northern Transportation Limited accounted for the higher total. Approximately 1,800 Polymer workers lost some \$680,000 as a result of the continuance of their strike which had commenced on March 19th.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Salaried employment was substantially higher in the functions "Defence Services", "General Government" and "National Resources and Primary Industries - (a) Fish and Game and (b) Forests". Prevailing rate employees were more numerous in "Defence Services", "Recreational and Cultural Services - Parks etc." and "National Resources and Primary Industries - (a) Fish and Game (b) Forests and (c) Other". There were more Casual employees in "Defence Services", "Transportation and Communications" and "Natural Resources and Primary Industries" but fewer in "Social Welfare - National Employment Services" and "Recreational and Cultural Services - Parks etc.". The majority of changes were seasonal in nature such as the employment of summer staff by the departments of Agriculture, National Defence and Northern Affairs and National Resources and the layoff of peak period staff by the Unemployment Insurance Commission.

## FEDERAL GOVERNMENT EMPLOYMENT

June, 1959

PART B - DEPARTMENTAL BRANCHES SERVICES AND CORPORATIONS

Employment of Salaried and Ships' Officers and Crews increased only slightly in June over May 1959. Prevailing Rate employment was higher in the functions "Defence Services", "Recreational and Cultural Services - Parks etc." and "Natural Resources and Primary Industries - Lands: Settlement and Agriculture" due to seasonal increases by the departments of National Defence, Northern Affairs and National Resources and Agriculture. Increased Casual employment in functions "Defence Services" and "Transportation and Communications - Waterways" was offset by a substantial drop in "Social Welfare - National Employment Services". This was the result of seasonal increases by the departments of National Defence and Public Works and a sharp decline in numbers of casual staff of the Unemployment Insurance Commission.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Salaried, prevailing rate and casual employees were lower by 270, 735 and 233 respectively in the function "Defence Services" due to seasonal staff reductions by National Defence. Declines of 119 for prevailing rate and 106 for casual employees were recorded in the function "Natural Resources and Primary Industries - Parks etc.". There were 179 fewer casuals in the function "Natural Resources and Primary Industries - Lands etc.". Casual employees rose by 427 persons in "Transportation and Communications - Waterways" due to hirings by the departments of Transport and Public Works.

## FEDERAL GOVERNMENT EMPLOYMENT

September, 1959

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given in the report for April 1959. Total staff strength declined by 5,492 in September 1959 as compared with August but was 3,831 higher than in September 1958. Earnings of staff decreased by \$1,417,000 from August but were up \$5,277,000 from September 1958.

The nine month total of earnings of all persons employed by the Federal Government was just under one billion dollars (\$998,295,000) a rise of 5.0 p.c. compared with \$951 millions for the equivalent period of 1958. Staff of Agency and Proprietary Corporations and Other Agencies earned \$448 millions in the first nine months of 1959 compared with \$421 millions to the same date in 1958, a rise of 6.4 p.c. Employees of Departmental Branches, Services and Corporations earned \$550 millions from January 1 to September 30, 1959 up \$20 millions or 3.8 p.c. from the same nine months in 1958.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The number of employees in Agency and Proprietary Corporations in September, 1959 was 1,185 lower than August, 1959. The decline was due mainly to seasonal decreases by the Canadian National Railways, Atomic Energy of Canada Ltd. and the Eldorado Mining and Refining Ltd. Earnings of these employees decreased by \$589,000 in September, 1959 as compared with August, 1959.

## FEDERAL GOVERNMENT EMPLOYMENT

September, 1959

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Salaried employees declined in the functions "Defence Services", "General Government - Executive and Administrative" and "Natural Resources and Primary Industries - (a) Fish and Game, (b) Lands: Settlement and Agriculture, (c) Minerals and Mines and (d) Other" due mainly to the termination of summer assignments to Student Assistants in the departments of National Defence, National Revenue, Agriculture and Mines and Technical Surveys. Seasonal decreases in prevailing rate employees were recorded in the functions "Defence Services", "Recreational and Cultural Services - Parks etc." and "Natural Resources and Primary Industries - Lands: Settlement and Agriculture". There were fewer casual employees in the functions "Defence Services", "General Government - Executive and Administrative", "Social Welfare - National Employment Services", "Natural Resources and Primary Industries - Other" and "Other-Other" but more in the functions "Natural Resources and Primary Industries - Lands: Settlement and Agriculture" and "Other - Post Office".

## FEDERAL GOVERNMENT EMPLOYMENT

October, 1959

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given in the report for April, 1959. This report includes, for the first time, an analysis of the number of male and female employees in departmental branches, services and corporations. This information is included in table 5 and indicates that more than 7 of every 10 employees in the Federal public service are men.

In October 1959, total employees of the Federal Government declined for the third consecutive month following a seasonal pattern similar to last year where peak employment was reached in July 1958. There were 5,429 less employees in October 1959 as compared with September 1959, but 2,535 more than in October 1958. Earnings of these employees decreased by \$442,000 from September but were \$5,541,000 above October 1958. Employees in Departments decreased by 2,318 and in Proprietary Corporations by 3,278 from September 1959, while in Departmental Corporations they increased by 276. Earnings of Departmental employees decreased by \$60,000, those of Proprietary Corporations declined by \$461,000 while earnings of Departmental Corporation staff increased by \$40,000. Total earnings for January 1 to October 31, 1959 were \$52,633,000 higher than the corresponding period of 1958.

## FEDERAL GOVERNMENT EMPLOYMENT

October, 1959

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The number of employees in Agency and Proprietary Corporations in October, 1959 was 3,387 lower than in September, 1959. The decline was due mainly to seasonal decreases by the Canadian National Railways and the Northern Transportation Company Ltd. Earnings of employees decreased by \$422,000 in October, 1959 as compared with September, 1959. The ten month total was a little over half a billion dollars (\$500,510,000) a rise of 6.7 p.c. compared with \$469,005,000 for the equivalent period of 1958.

## FEDERAL GOVERNMENT EMPLOYMENT

October, 1959

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Salaried employees rose in the functions "Education - Indian and Eskimo Schools and Schools in N.W.T." and "Other - Post Office" due to employment of Teachers by the departments of Citizenship and Immigration and Northern Affairs and National Resources and the employment of more staff by the Post Office. There were less salaried employees in the functions "Recreational and Cultural Services - Parks etc." and "Natural Resources and Primary Industries - Forests" due to seasonal decreases by the department of Northern Affairs and National Resources. Prevailing rate employees declined in the functions "Recreational and Cultural Services - Parks etc." and "Natural Resources and Primary Industries - (a) Fish and Game and (b) Lands: Settlement and Agriculture". Ships' officers and crew employees were lower in the function "Natural Resources and Primary Industries - Fish and Game". There were less casual employees in the functions "Defence Services", General Government - Executive and Administrative", "Transportation and Communications - (a) Airways and (b) Waterways" and "Natural Resources and Primary Industries - (a) Fish and Game, (b) Lands: Settlement and Agriculture and (c) Other" but more in the functions "Social Welfare - National Employment Services" and "Education - Indian and Eskimo Schools and Schools in N.W.T." The departments of Agriculture, Citizenship and Immigration, Fisheries, Labour, National Defence, Northern Affairs and National Resources, Public Works and Transport were mainly responsible for the majority of changes recorded in prevailing rate, ships' officers and crew and casual employees.

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given in the report for April, 1959. This report includes, for the first time, staff employed outside of Canada by Agency and Proprietary Corporations and Other Agencies. As a result the year to year comparison of numbers and earnings is not possible on the basis of totals for November, 1959. Not including the 9,020 employees abroad who had earnings of \$4,114,000 total employment in the Federal Government was 335,253 in November 1959 and their earnings amounted to \$109,755,000. These compare with 330,470 persons employed in November 1958 whose earnings totalled \$104,358,000. Staff of Departmental Branches, Services and Corporations employed abroad have been included in these statistics since their commencement in April, 1952. In November they numbered 2,427 persons with regular earnings (excluding overtime and special payments) of \$678,632.

Eleven month totals show that earnings of all Federal employees were \$1,225,407,000 to November 30, 1959 and \$1,163,264,000 to November 30, 1958. Removing the influence of the \$4,114,000 paid to the foreign located staff mentioned above, the year-to-year increase was \$58,029,000 or 5.0 p.c.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

Staff employed outside of Canada by Agency and Proprietary Corporations and Other Agencies have been included in Federal Government Employment statistics for the first time with the release of this report. At the end of November there were 9,020 persons in the employ of these government bodies in foreign countries. The great majority were working for subsidiaries and branches of the Canadian National Railways in the United States. Trans-Canada Airlines was the only other government corporation having a substantial number of employees outside Canada.

The inclusion of the staff located outside Canada led to an increase rather than the expected decrease in employees and earnings of these government Corporations. Not including staff abroad the total number of employees declined to 138,535 from 141,491 in October, while staff payroll in November 1959 on the same basis amounted to \$49,300,000 compared with \$52,055,000 in October.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Salaried employment increased by almost 350 over October and by 2,415 over November 1958. The main changes in the 12 month interval were a decrease of 1,200 employees in Defence Services, an increase of 1,400 in General Government and a rise of 800 in Post Office. Prevailing Rate staff was down 735 from October and 1,282 from November 1958 with the principal change being a drop of 600 in Defence Services in the period of one year. Only small changes occurred in Ships' Officers and Crews and in Casual employment.

An analysis of the male-female ratio of staffs shows that slightly over 72 p.c. of Salaried staff in November were men. The ratio varies considerably by function with women accounting for less than 15 p.c. of Transportation and Communications staff but for almost half the employees in Health and Social Welfare and about 65 p.c. of those in Education.

INTRODUCTION

A complete description of the method of collection and the statistics included in this series was given in the report for April 1959. The December 1959 report includes for the first time an analysis of hiring and separation rates of salaried employees in departmental branches, services and corporations which have separately administered personnel offices. This information is included in table 9 and will be published regularly in the last month of each quarter.

There was a seasonal decline of employees from 344,273 in November to 337,981 in December, 1959. Employee earnings, however, rose slightly from \$114,049,000 to \$114,401,000. A comparison with December 1958 figures shows that Federal Government employment (excluding staff of Agency and Proprietary corporations abroad) was down very slightly at 329,017 in December 1959 versus 329,737 while employee earnings were up 3.1 p.c. at \$109,807,000 against \$106,530,000.

PART A - AGENCY AND PROPRIETARY CORPORATIONS AND OTHER AGENCIES

The number of employees in Agency and Proprietary Corporations in December was 4,355 less than in November. The decline occurred in every province and was due mainly to seasonal decreases by the Canadian National Railways and the National Harbours Board. Earnings of these employees increased by \$43,000 because there were two more working days in December than November.

In using cumulative totals or comparing employees and earnings with those for the previous year, the staff located abroad (outside Canada) should be deducted for the months of November and December 1959 in order to have comparable figures. This is due to the fact that data pertaining to those employees were not included prior to November 1959. At the end of December 1959, 8,964 employees of Agency and Proprietary Corporations were located outside Canada. These staff had earnings of \$4,594,000 during December 1959 and \$8,888,000 during November and December 1959.

PART B - DEPARTMENTAL BRANCHES, SERVICES AND CORPORATIONS

Salaried employees declined in the functions "Natural Resources and Primary Industries - (a) Minerals and Mines and (b) Other" due to seasonal decreases by the department of Mines and Technical Surveys. There were less prevailing rate employees in the function "Recreational and Cultural Services - Parks, etc." due to seasonal decreases by the department of Northern Affairs and National Resources. Ships' Officers and Crew employees were lower in the functions "Transportation and Communication - Waterways" and "Natural Resources and Primary Industries - Fish and Game" due to decreases by the departments of Fisheries and Public Works. The main changes recorded for casual employees were a) decreases in the functions "Defence Services", "Transportation and Communications - Waterways", "Natural Resources and Primary Industries - Lands, etc.", and "Other - Post Office" and b) a rise in "Social Welfare - National Employment Services". The departments of Agriculture, Labour, National Defence, Post Office, Public Works and Transport were responsible for the above changes in casual employment which were principally seasonal in nature.

Total employees of Departmental Branches, Services and Corporations declined by 1,937 in December 1959 as compared with November 1959. Women employed numbered 702 more but male staff decreased by 1,307 and those for whom sex detail is unavailable were down by 1,332.

During the fourth quarter of 1959 the rate of hirings among salaried employees was 12 per thousand and the rate of separations 13 per thousand indicating a decrease in staff. The hirings and separations rates for women were greater than those of men denoting a larger turnover of female staff. The separation rates were above those of hirings for men due mainly to seasonal staff reductions by the departments of Fisheries, Mines and Technical Surveys and Northern Affairs and National Resources.

## Notes and Definitions

**Department** - For purposes of this table only, a department is defined as a departmental branch, service or corporation having a separately administered personnel office.

**Hiring** - The initial appointment of an individual to the reporting department.

**Separation** - Termination of service of an individual in the reporting department.

**Average Employment** - The mean monthly average number of employees in each department during the quarter.

**Monthly Average** - (Hirings and Separations) - The arithmetic mean i.e. one third of the actual hirings and separations for the quarter.

**Monthly Rate per 1,000 Employees** - (Hirings and Separations) - The rate is computed by the following formula:

$$\frac{\text{Monthly Average (number hired or separated)} \times 1000}{\text{Average Employment (during quarter)}}$$

October 1 to December 31, 1959

## Footnotes

1/ Less than 100 employees. Data have been omitted because small changes in numbers hired and separated result in abnormal changes in hiring and separation rates. These data have been included in the totals.

2/ Excludes employees for whom data on hirings and separations are not available: Defence Research Board and locally engaged of National Defence averaging 2,632, and locally engaged of External Affairs averaging 511.

October 1 to December 31, 1959

## Notes and Definitions:

**Department** - For purposes of this table only, a department is defined as a departmental branch, service or corporation having a separately administered personnel office.

**Hiring** - The initial appointment of an individual to the reporting department.

**Separation** - Termination of service of an individual in the reporting department.

**Average Employment** - The mean monthly average number of employees in each department during the quarter.

**Monthly Average** - (Hirings and Separations) - The arithmetic mean i.e. one third of the actual hirings and separations for the quarter.

**Monthly Rate per 1,000 Employees** - (Hirings and Separations) - The rate is computed by the following formula:

$$\frac{\text{Monthly Average (number hired or separated)} \times 1000}{\text{Average Employment (during quarter)}}$$
